U.S. Department of State	•
Release X Excise Deny	_
Release X Excise Deny Declassify: In Pari = In Full	5

(Antecedents on two Northamerican citizens' decementation(s)

## A. BACKGROUND

- 1. American citizens FRANK RANDALL TERRUGI BOMBATCH and CHARLES HORNAN LAZAR, were accurately investigated by officials of the Military Intelligence Service, in order to establish cause of their death as a special deference to the American Embassy.
- 2. Available information on both persons leads to the conclusion that they were involved in extreme leftist movements in our country, which they supported both materially and ideologically.
- 3. It is necessary, furthermore, to indicate that available and well supported data evidence existence of an organization linked to Northemerican residents in our country, with connections in the rest of the countries in the Continent and led from the U.S., which has undertaken an offensive compaign tending to obtain the following fundamental objectives:
- a. Help extremists and political leaders of the former government leave the country.
- b. Carry out a campaign to discredit the Junta de Gobierno, intending through those actions, to impede economic or any other assistance from the U.S. to our country.
- c. Discredit diplomatic procedures of the American Embassy in Chile, alleging that these have been weak and have permitted military action against Northamerican citizens residing in Chile.

This situation is related with the citizens HORMAN and TERRUGL since there are concrete reasons to believe that at least the latter belongs to said argumization.

- 4. On the participation of armed forces in the cases referred to, the following has been proved:
- a. That FRANK TERRUCT was actually detained and taken to the National Stadium but subsequently he was set free and that his decease occurred while he was out of military or police control.
- b. In the case of HDRMAN, it has not been possible to prove the effectiveness of his detention by military or police forces, as no registration appears

UNCLASSIFIED

JRULASSITED

on him in the pertaining Units, nor on any list of arrested people in any circumstances in the National Stadium.

- c. To this respect, It can be stated that his classification during the investigations performed was "disappeared" and efforts to locate him were based on this fact.
- d. Available information shows that Mr. Harman may have been detained by military personnel at his domicile located in what has been named "Belt Vicuña Mackenna", but this situation is connected with elements that present an abnormal picture of the situation since these uniformed persons supposedly carived in a civilian truck, without identifying themselves and without locating any documentation on searching, thus clearly transpossing regulations in this respect.
- 5. In view of the above, action of the Service, which in all times contacted the parents and wife of Mr. Harmon, was almed at finding this clitizen since he was classified as "disappeared". Thus, his decease was finally proved after accurate studies on Identification by means of finger print tests and after finding that his corpse belonged to one of the non-identified persons turned into the Legal Medical Institute on 18 Sep 1973.

### 8. CONCLUSSIONS

- 1. In accordance with the above data, it can be concluded that both American citizens died while out of military control.
- 2. It can also be concluded that during period 11 to 20 September, snipers and guerilla actions in Santiago had to be suppressed by force, during these actions it was varified that extremists fighting against civilians were responsible for killing people with weapons of a similar or equal caliber to those used by military forces, and therefore this fact must not be dismissed as a possible cause for death of both American citizens under reference.
- 3. Control on persons during those days, especially on people who had been detained, escape to the responsibility of Military Authorities and presumptions on any criminal action by these forces must be discarded, as they were under command of responsible officials with strict instructions in this respect.

SANTIAGO, 30 October 1973.
